

Respirator Fit Test

• This is a Qualitative Fit Test

- Uses proper hood, and bitter or sweet solution
- Follows exercises outlined in L&I's WAC 296-842
- Required **initially** and **annually**

• This is **NOT** a fit test. It is a seal check.

- A user seal check is NOT the same as a respirator fit test
- Perform the user seal check **each time** you don your fit-tested respirator
- Do both negative and positive check
